1.0 EXECUTIVE SUMMARY

- 1.1 During the year, the Ministry was successful in achieving major targets set at the beginning of the year under review. Despite manpower and equipment constraints and major electrical problems, the Ministry's performance was commendable.
- 1.2 The technical divisions achieved their objectives specifically in areas such as marketing of Guyana's tourism product overseas, promotion of industrial development, educating consumers of their rights and responsibility, the resolution of consumer complaints and preparation of draft legislations to facilitate local trade.
- 1.3 Guyana eco-tourism product was marketed through various means namely (i) Participation at conference and trade fairs (ii) printing of brochures and production of CD Guyana Naturally (iii) launch of My Guyana Eldorado Magazine and Eco-Vision Newsletter (iv) Participation of media representatives from North America on a fam trip to eco-resorts in the hinterland region.

In an effort to continue the development of Guyana's Tourism product, a Charrette and Seminar were held. The Charette identified and considered three areas listed below with the aim of developing their tourism products.

- (i) Historical Georgetown
- (ii) The Rupununi Savannahs
- (iii) The Kaieteur National Park

A Seminar was held at Anna Regina on Planning for Tourism Development in Region 2 Pomeroon/Supernaam. At this Seminar the Tourism products of the Region were identified with the aim of further actions to be taken for their development.

During the year the "War on Bad Manners Campaign" was launched. This campaign sought to instill in Guyanese the need to portray good manners at all times. This campaign was carried out using various means, namely:

- (i) The radio and TV
- (ii) Calypso competition
- (iii) Production of CD
- 1.4 With a view to encourage investment in Guyana and to provide a business friendly environment the action stated below was taken:
 - (i) Un utilized plots at the Eccles and Coldingen Industrial Estates were repossessed and re-allocated to investors who are serious in building their factories and start businesses at the earliest possible time.
- 1.5 It is to be noted that the Commerce Division was formed in June, 2001 after the portfolio of the Ministry changed to Tourism, Industry and Commerce from Trade, Tourism and Industry. Despite the shortage of staff in the division, the majority of its targets under its work [programme were achieved, for example:
 - (i) Applications for suspensions of CET were processed, with firms being consulted and objections made to the requests as appropriate.
 - (iii) A data base of consumption tax concessions from 2001 to date was created and regular periodic reports of consumption tax remissions produced.

- (iii) Support was provided to the Ministry of Foreign Trade and International Cooperation through providing analyses of the domestic impact of a wide range of trade issues (such as those between CARICOM and Costa Rica) and multilateral commitments.
- (iv) Background work has been done on the practicalities of applying competition policy to a small developing country such as Guyana. CARICOM Secretariat have almost completed a model Competition Bill which the Ministry intends to implement, with suitable modifications if necessary.
- (v) Work has begun on considering the issues surrounding the implementation of an Anti-Dumping policy and the practicalities involved in the setting up of an Anti-Dumping Agency.
- 1.6. The Consumers Affairs Division continue to implement activities in 2003 to educate consumers of their rights and responsibilities on the print and electronic media Consumers complaints were dealt with and approximately 55% of complaint were resolved.
 - A Draft Consumer Protection Bill has been completed. It is expected that with the passage of this Bill in Parliament the percentage resolution of consumer complaints will be increased significantly since the bill makes provisions to resolve difficult consumer complaint cases which are presently not resolved.

Administration and support services division continued in its efforts to provide a working environment conducive to the accomplishment of the objectives set by the technical divisions.

Maintenance to computers and other equipment were done as scheduled. The fire escape was repaired and five new computers procured. These and other activities were completed to provide tools and right atmosphere for the accomplishment of the goals of the Ministry.

1.7 As noted before the Ministry was able to achieve its major objectives despite serious constraints. This success was due to teamwork among staff members within and across divisions. This approach to planning, organizing and implementation of the Ministry's workprogramme will continue in 2004.

Kenneth Jordon

Permanent Secretary

MINISTRY OF TOURISM

MINISTRY OF TOURISM

229 South Road, Lacytown

Georgetown

2.0 MISSION STATEMENT
