“56. security equipment including security cameras and alarm systems;

57. double cab vehicles not exceeding 2,500 cc;

58. outboard motors not exceeding 150 HP.”.

EXPLANATORY MEMORANDUM

This Bill seeks to amend the Income Tax Act, Cap. 81:01, the Corporation Tax Act, Cap. 81:03, the Value-Added Tax Act, Cap. 81:05, the Property Tax Act, Cap. 81:21, and the Customs Act, Cap. 82:01, in order to give effect to fiscal measures announced in the National Budget for 2026.

The amendments are intended to increase disposable income, reduce the cost of living, promote local production, stimulate investment in priority sectors, and provide targeted tax and duty relief to individuals and businesses.

Clause 1 provides for the short title and commencement of the Act. The amendments to the Income Tax Act and the Corporation Tax Act are deemed to have come into operation with effect from the year of income commencing on the 1st January, 2026. The amendments to the Value-Added Tax Act and the Customs Act will come into operation on the 16th February, 2026. The amendments to the Property Tax Act are deemed to have come into operation with effect from the year of income commencing on the 1st January, 2025.

Clause 2 amends the Income Tax Act to increase personal allowances and chargeable income thresholds. These amendments are intended to reduce the personal income tax burden on taxpayers and to increase disposable income. Additionally, it seeks to expand the list of products eligible for export allowance to include timber value added products, with the aim of supporting the forestry sector by reducing tax payable for qualifying exporters and improving their competitiveness in international markets.

Clause 3 amends section 7 of the Corporation Tax Act to exempt from Corporation Tax, income arising from agriculture and agro-processing, as well as income arising from child care services and elderly care services. These measures are intended to encourage investment expansion in these priority social and productive sectors.

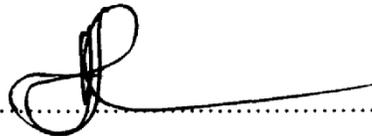

Clause 4 amends Schedules I and II to the Value-Added Tax Act to provide VAT relief for certain supplies, including locally made furniture, locally produced jewellery, and security equipment such as security cameras and alarm systems. The amendments also provide VAT relief for specified categories of motor vehicles, including double cab pickups and hybrid vehicles, and

update engine capacity limits for certain equipment, including outboard motors. These measures are intended to reduce the cost of living, lower transportation and operating costs, and promote more efficient and environmentally friendly vehicles.

Clause 5 amends section 6 of the Property Tax Act to remove the imposition of property tax on individuals. This amendment is intended to provide direct financial relief to homeowners and individual property owners.

Clause 6 amends the First Schedule to the Customs Act to grant duty-free treatment to specified items, including security equipment, double cab vehicles and outboard motors within prescribed engine capacities. This amendment is intended to reduce import costs and improve access to security equipment and transportation.

The Bill therefore gives effect to the Government's fiscal policy measures for 2026, as reflected in Budget 2026, aimed at enhancing economic activity, supporting households, encouraging local production, and reducing the overall cost of living.

Hon. Dr. Ashni K. Singh, M.P.

Senior Minister in the Office of the President

with Responsibility for Finance.
